SECTION 3-102: TRUCK ROUTES

The Village Board may, by resolution, designate certain streets in the Village as truck routes, restricting traffic for vehicles weighing in excess of ten tons. It shall be unlawful for persons operating such vehicles to travel on streets other than those designated for such vehicles unless to pick up or deliver goods, wares or merchandise, and in that event, the operator of such vehicle shall return to said truck routes as soon as possible in traveling through or about the Village. The Village Board shall cause notices to be posted or shall erect signs indicating the streets so designated as restricted routes.

SECTION 3-103: TURNING; HAND SIGNALS

A signal of intention to turn right or left shall be given continuously during not less than the 100 feet traveled by the vehicle before turning. The signals herein required shall be given either by means of the hand and arm or by a signal device of a type approved by the Department of Roads.

SECTION 3-104: TURNING, GENERALLY

Vehicles turning to the right into an intersecting street shall approach such intersection in the lane of traffic nearest to the right-hand side of the street and must turn the corner as near the right-hand curb as possible to keep between the curb to the right and the center of the intersection of the two streets. The driver of a vehicle intending to turn to the left shall approach such center line of the street, and in turning shall pass as near as possible to the center of the intersection, passing as closely as practicable to the right thereof before turning to the left. For the purposes of this section, the center of the intersection

shall mean the meeting point of the medial lines of the streets intersecting one another.
(Neb. Rev. Stat. §60-6,159)

SECTION 3-105: TURNING; CAUTION

The operator of a vehicle shall, before stopping, turning or changing the course of such vehicle, see that there is sufficient space to make such movement in safety. If any pedestrian might be affected by such movement, the operator shall give a clearly audible signal by sounding the horn, and whenever the operation of any other vehicle may be affected by such movement, he/she shall give some other unmistakable signal to the drivers of all other vehicles of his/her intention to make such movement.

SECTION 3-106: TURNING; "U" TURNS

No vehicle shall be turned so as to proceed in the opposite direction except at a street intersection. No vehicle shall be turned so as to proceed in the opposite direction at any intersection where an automatic signal is in operation, or where a sign is posted indicating that "U" turns are prohibited.

SECTION 3-107: RIGHT OF WAY; GENERALLY

1. When two vehicles approach or enter an intersection at approximately the same time, the driver of the vehicle on the left shall yield the right of way to the vehicle on the right when the paths of such vehicles intersect and there is danger of a collision, unless otherwise directed by a law enforcement officer stationed at the intersection. The driver of a vehicle intending to turn to the left within an intersection, or into an alley, private road or driveway shall yield the right of way to any vehicle approaching from the opposite direction which is within the intersection or so close thereto as to constitute an immediate hazard. The driver of a vehicle entering a village street from a private road or drive shall yield the right of way to all vehicles approaching on such streets.
